

## New website launched!

Our new and improved website is now launched. The web shop will be further developed but you can already now ask for a quote and order parts from us. As always all our parts are unique for us and the quality has been proven as you can see under "results" on our website [www.healey.se](http://www.healey.se) Even more parts will be added shortly. And please, don't forget to give us your "like" on Facebook.

The screenshot shows the homepage of the Austin-Healey Racing Sweden website. At the top left is the company logo. To the right is a large image of a red winged sign that says 'Austin-Healey'. Below the logo is a navigation menu with the following items: HOME, NEWS, ABOUT US, PICTURES, VIDEOS, RESULTS, CALENDAR, and PART SALES. The main content area is divided into two columns. The left column has a header 'Austin Healey Racing Sweden' and a sub-header 'Welcome to Austin-Healey Racing Sweden and Sideways Engineering AB'. Below this is a paragraph: 'Austin-Healeys are our business. We do everything from original restorations to race and rally preparations, parts development and sales.' followed by another paragraph: 'Our extensive competition experience is the base for our competence and our focus on quality and durability. Do not hesitate to contact us with your enquires as no project is too big or too small for us.' Below that is a section titled '"Kings of the Castle"' with a thumbnail image of a newsletter and the text 'newsletter nr 51.'. The right column has a header 'Memories' and a photograph of a man in a red shirt standing next to a red Austin-Healey car. At the bottom of the page is a footer with three sections: 'HAVE A LOOK AROUND' with links for HOME and NEWS; 'GET IN TOUCH' with contact information: Tel: 0702-66 10 01 and Email: info@healey.se; and 'FOLLOW US' with a Facebook 'Rekommendera' button and a notification icon showing '11'.

## The build of the teams new winner!

The team **Austin-Healey Racing Sweden** has just started building the new race car. It will be fully build in accordance with homologation and FIA Appendix K regulations.

Since the teams old car was very successful the target has been set even higher for this car. Planned to be ready for shake-downs and fine tuning tests at the end of the season and then take on a full season in 2015.

## Business is growing and workshop is busy!

The development in the workshop is very positive with more and more customers finding their way to Sideways Engineering.

A completely new BJ8 is being built for a customer alongside the new race car for the team. Both road going and racing cars are passing through the workshop needing various degrees of repairs, restoration and tuning.

The rumours of our engine building skills has also meant that we constantly have 3-4 engines in progress simultaneously.

Also our parts range is increasing and as always the parts have been thoroughly tested in race conditions and years of racing experience at the top.

## New products!

### Pistons – from road to full race

Lightest and strongest pistons we have ever used. Manufactured according to our drawings with years of experience behind them.

We recommend these pistons for everything from road cars to full race.

### Pedal boxes

Identical copies of the original but of course made from modern steel and closer tolerances.

We also offer pedalboxes with balance bar and dual master cylinders.

All parts are new and also sold individually.
