

Opening ceremony with great atmosphere and many guests

Almost 80 guests came to the opening ceremony of our workshop. Eight cars were on display, ranging from std Healeys' undergoing full restoration, full-race and rally cars, a Lotus Corsair and even an Austin-Healey 100 GT.

We would like to thank everyone who came to visit us. We know many had travelled far for this special occasion.

Thank you!

New product!

"Sideways" rocker cover

Finally the product that so many have asked for – a new rocker cover of our brand.

With quality, functionality and lightweight being the priorities with all parts we develop this is no exemption.

As usual we thoroughly researched and developed this new part using 3D CAD design and computerized force/stress analysis that produced an incredibly light cover - 2kg complete with an oil-tight aluminium cap!

Go 'Sideways' – to save weight and stop oil leaks!

Wrinkle finish 2 500 SEK incl. VAT

Unpainted 2 100 SEK incl. VAT
